Students that have, at some point, been in the Malaysian National System, could be a year older than students who have been in a British International School at all times. This means we will accept students into Year 10 who are between 14 and 16 (but a young 16). For year 12 we will accept students that are aged between 16 and 18 (but a young 18). We will not take students younger than the stated ages unless there is a very compelling reason to do so.
